14. Write in detail the types of soil found in India.
15. State one prudential reason and one moral reason for power sharing with an example from the Indian context.
16. Read the extract and answer the questions that follows :

Print created the possibility of wide circulation of ideas and introduced a new world of debate and discussion. Even those who disagreed with establishment authorities could now print and circulate their ideas. Through the printed message, they could persuade people to think differently and move then to action. This had significance in different spheres of life.

~~B-4-X~~

The ideas of scientists and philosophers now became more accessible to the common people. Ancient and medieval scientific texts were compiled and published and maps and scientific diagrams were widely printed. When scientists like Issac Newton began to publish their discoveries, they could influence a much wider circle of scientifically minded readers. The writings of thinkers such as Thomas Paine, Voltaire and Jean Jacques Rousseau were also widely printed and read. Thus their ideas about science, reason and rationality found their way into popular literature.

Print popularised the ideas of the enlightenment thinkers. Collectively, their writings provided a critical commentary on tradition, superstition and despotism. They argued for the rule of reason rather than custom and demanded that everything be judged through the application of reason and rationality. They attacked the sacred authority of the church and the despotic power of the state, thus eroding the legitimacy of a social order based on tradition. The writings of Voltaire and Rousseau were read widely; and those who read these books saw the world through new eyes, eyes that were questioning, critical and rational.

Questions :

- (a) Evaluate the effectiveness of print in the transmission of ideas and cultures.

1

- (b) To what extent do you agree that scientific ideas were circulated through print ? Give only one aspect. 2
- (c) To what extent did print culture create conditions for French Revolution ? Cite any one evidence to support your answer. 2

Section-D
